25X1C

It is planned to reconstruct the railroad viaduct in Goerlitz (O 52/B 00) during the second quarter of 1951. However on [REDACTED] 1951, no observable preparations for the reconstruction of the viaduct had been made. *

25X1A *

Comment: The proposed reconstruction of the railroad viaduct in Goerlitz is reported for the first time. The reconstruction of the viaduct would establish a major border crossing between the Russian Zone of Germany and Poland. This would also be of importance for Russian transit traffic.
